Introduction

What does it do?

By clicking the header of an content element you can toggle on and off the display of it's contents.

Screenshots

The screenshot shows a configuration panel for an accordion component. It has three tabs: 'General', 'Text', and 'Access'. The 'General' tab is selected. Below the tabs are several settings:

- Type:** A dropdown menu set to 'Text'.
- Hide:** A checkbox that is currently unchecked.
- Header:** A text input field containing the placeholder text 'Pellentesque blandit tristique ipsum'.
- Accordion:** A checkbox that is checked.
- Open by Default:** A checkbox that is checked.
- To top:** A checkbox that is unchecked.

Two new checkboxes to setup the accordion functionality.

☐ Pellentesque blandit tristique ipsum

Sed mollis, sapien ut elementum tristique, tellus ipsum acci
mauris ut velit. facilisis felis nibh in nisl. Sed placerat, neque
ipsum consectetur ante, eget scelerisque ligula tellus vel e

Nam aliquam, lorem nec dapibus feugiat, ipsum quam laore
augue vitae sollicitudin non, est.

⊕ Phasellus placerat velit volutpat ligula

⊕ Image Only

Donec nonummy turpis sed velit

Sed enim dolor, molestie aliquet, faucibus vel, elementum p
Display in the front end

Administration

- Install extension in Ext Manager.
- Include the extensions template into your TS setup.
- Adjust your TS setup to use the extension's settings for the rendering of those areas, where accordion functionality is to be available, i.e.:

```
lib.content = COA
lib.content {
    wrap = <div id="content">|</div>
    10 < styles.content.get
    10.renderObj < plugin.tx_ghaccordion.singleRenderObj
}
```

Known problems

- If your PAGE object is not named page, you have to include the javascript yourself. See the extension's static template...
- This extension utilizes the Prototype and Scriptaculous libraries bundled with TYP03. You may encounter problems if other javascript libs are used on the same site.
- Please report bugs and feature requests on forge: http://forge.typo3.org/projects/show/extension-gh_accordion

To-Do list

- Please report bugs and feature requests on forge: http://forge.typo3.org/projects/show/extension-gh_accordion
